Job Description: Internal Compliance Officer

Compliance function · One position per shift

Designation	Internal Compliance Officer (ICO)
Department	Compliance
Reporting To	Head Internal Compliance – sole reporting line
Function Line	Internal Compliance Officer → Head Internal Compliance → Compliance Head → Chief Compliance Officer
Direct Reports	KYC Executive on the assigned shift, and the KYC Associates beneath
Grade Level	Middle management
Working Hours	8.5 hours, aligned to the assigned shift
Location	Blynk Virtual Technologies Pvt. Ltd., 1st Floor Balwant Arcade, MP Nagar Zone-2, Bhopal

Position of the role. The Internal Compliance Officer is the approval gate on the shift. No order proceeds to payment without this role's approval where the file requires it. **The decision to approve or reject cannot be overruled by Operations, Client Relations or Payment Operations, and cannot be overruled by the General Manager.** Where a business function disagrees, the route is to the Head Internal Compliance. The Officer determines approval; the Chief Compliance Officer, as Principal Officer, determines suspicion and makes any statutory filing.

Role Purpose

The Internal Compliance Officer holds the Company's compliance position during the assigned shift: approving or rejecting client files and orders on the evidence, reviewing what the KYC Associates surface, supervising the quality of verification work, and referring anything that may amount to suspicion to the Head Internal Compliance.

Key Accountabilities

1. Approval and Rejection

- Approve or reject every file referred by a KYC Associate, and every file at or above the value threshold set in the AML and KYC Policy, on the evidence in the file.
- Record the basis for every decision at the time it is made, including approvals. A decision without recorded reasoning is an incomplete decision.
- Reject or hold where the file does not meet the standard, regardless of the value of the order, the seniority of the person asking, or the client's importance.
- Communicate the decision as a decision. Do not negotiate it with Operations or Client Relations, and disclose nothing to them about the reason beyond the status.
- Ensure a rejected or held client is not progressed by any function, and report immediately to the Head Internal Compliance any attempt to proceed.

2. Alert Review and Referral of Suspicion

- Review the alerts and observations raised by KYC Associates during the shift, and record a determination on each.
- Conduct the second-level review on transaction monitoring: pattern across orders, counterparty repetition, structuring, velocity change, and inconsistency between stated purpose and observed activity.
- **Refer to the Head Internal Compliance every matter that may amount to suspicion.** The Officer does not conclude that a matter is not reportable; that determination belongs to the Principal Officer.
- Maintain the shift record of alerts, determinations, referrals and items carried forward.

3. Due Diligence and Risk Categorisation

- Apply and confirm customer risk categorisation, and trigger enhanced due diligence where the criteria are met.
- Review sanctions, politically exposed person and adverse media screening outcomes, including nil results, on files referred.
- Approve or reject enhanced due diligence outcomes within the Officer's authority, and refer the remainder to the Head Internal Compliance.
- Oversee the ReKYC calendar for the shift and decide, on record, whether a client whose updation is overdue may continue transacting.

4. Supervision of the KYC Desk

- Supervise the KYC desk through the KYC Executive: allocation, quality and certification currency.
- Hold the KYC Executive to the routing standard: every referral raised by an Associate must reach the Officer unaltered and within time.
- Quality-check a sample of files cleared under delegated authority each shift, and correct any Associate whose accuracy is trending down before it becomes a finding.
- Review video KYC sessions against the checklist, including every session terminated or referred.
- Protect the desk from pressure. Any request from another function to clear, expedite or set aside a check is handled by the Officer, not left to the KYC Executive or the Associate.
- Ensure no Associate handles client files without current compliance certification.

5. Post-Completion Review

- Oversee the post-completion review of every completed order: that the file is complete, the verification evidence is attached, and the client record in the ERP client section reflects what actually happened.
- Identify, from completed orders, any pattern that should have been caught earlier, and feed it into the monitoring parameters through the Head Internal Compliance.
- Ensure the client record is closed to an audit-ready standard before the shift ends.

6. Coordination and Data Sharing

- Provide Operations and Client Relations with the compliance status of a client: cleared, pending, referred or rejected. State the status; do not explain the reasoning.
- Supply the External Compliance Officer with KYC files, screening results and the recorded compliance position on any account under lien, freeze or external query.
- Obtain transaction records from Operations and client records from Client Relations where needed for a review, and report to the Head Internal Compliance any function that fails to supply them.
- Complete a written handover to the incoming Officer covering open referrals, held clients and pending decisions.

Authority and Limits

- **Decides, and cannot be overruled by any business function or by the General Manager:** approval or rejection of a client file or order on compliance grounds; a hold pending further information; risk categorisation within the framework.
- **Refers to the Head Internal Compliance:** any matter that may amount to suspicion; any account freeze or exit; any file outside the Officer's approval authority; any pressure to override a decision.
- **Holds no authority** to determine suspicion, to make or decide against a statutory filing, to amend the policy, thresholds or monitoring parameters, or to release an order or a payment.
- **Escalates immediately to the Head Internal Compliance:** any attempt by any person to influence a decision; any client progressed despite a hold; any Associate reporting pressure from another function.

Key Performance Indicators

Measure	Standard
Decisions recorded with reasoning	100%
Referred files decided within service level	Above ____%
Quality-check sample of delegated clearances	____ files per shift, 100% completed
Suspicion referrals to the Head Internal Compliance	Measured for coverage. Under-referral is the failure mode
Decision consistency with other shifts on comparable facts	Variance below ____%
ReKYC decisions recorded on overdue clients	100%
Handover completeness	100%

No performance measure for this role is linked to order volume, transaction value, onboarding throughput, approval rate or turnaround alone, and none may be introduced. Targets marked ____ are set by the Head Internal Compliance.

Shift Structure

Shift	Timing	Duration
Morning	09:00 to 17:00	8 hours
Evening	17:00 to 01:00	8 hours
Night	01:00 to 09:00	8 hours

- One Internal Compliance Officer covers each shift. The additional half hour in the Officer's day is rostered to cover handover to the incoming Officer.

Qualifications and Experience

Essential

- Bachelor's degree in any discipline; a law, commerce or finance qualification is an advantage.
- Three years or more in KYC, AML or transaction monitoring at a bank, non-banking financial company, fintech or exchange, including at least one year making or supporting onboarding decisions.
- Working knowledge of the money laundering prevention framework and KYC obligations.

- Ability to write a decision that another person can follow and defend months later.
- Willingness to work rotational shifts including the night shift.
- Clear background verification.

Preferred

- Virtual digital asset or payments sector experience.
- CAMS or equivalent certification, or progress toward it.
- Experience supervising verification or review staff.

Competencies

- Holds a decision under commercial pressure, at any hour, without escalation becoming personal.
- Refers upward on uncertainty rather than resolving it to keep an order moving.
- Consistent: the same facts produce the same decision on Tuesday as on Saturday.
- Protects the team beneath from pressure rather than passing it down.

This Job Description defines the scope of the role and does not constitute the whole of the terms of employment. It is to be read with the appointment letter, the Attendance Policy, the Code of Conduct and the AML and KYC Policy of the Company. The Company reserves the right to revise this description with notice to the employee.

Acknowledgement

I have read and understood this Job Description and accept the accountabilities, escalation obligations and authority limits set out in it, including the obligation to refer rather than conclude on suspicion.
